PROFILE

Content and community professional with end-to-end production experience across video, live streaming, design, and copywriting, developed entirely within the proprietary trading industry. Currently moderates the **The5ers India Telegram community**, acting as the front-line brand voice for the region. Through June 2026, produced live streams and edited and published video content for The5ers host **Will Davis** at Apex Brotherhood, owning the pipeline from broadcast through to published cut. Writes all copy unaided, including headlines, captions, video scripts, and long-form explainers, and produces graphic design and animation assets using AI tooling. Funded prop-firm trader since May 2024, with first-hand command of the audience, the product, and the competitive landscape. Invited by The5ers and Trade The Pool to speak in December 2025 and at **Trade Prep 2026**. Self-directed, quick to adopt unfamiliar tools, and consistent under deadline pressure and public scrutiny.

EXPERIENCE

Live Stream Producer, Editor & Content Publisher · Will Davis — The5ers Host

Oct 2025 – Jun 2026

- Produced live streams for Apex Brotherhood alongside Will Davis — running the broadcast in real time and troubleshooting on air in front of a live trader audience.
- Edited and published his video content, turning raw footage and stream recordings into finished, platform-ready cuts in DaVinci Resolve.
- Handled the full loop from edit to upload — pacing, captions, titles, and posting — rather than handing off a file and stopping.
- Worked inside an established creator's voice and visual identity, keeping output consistent with how the brand already sounds and looks.

Community Moderator · The5ers India — Telegram

Present

- Front-line voice of the brand for the India trader community: rules, payouts, KYC, platform questions, and expectation-setting in a high-volume public chat.
- Write the pinned explainers, announcements, and recurring answers the community reads first — copy that has to be clear, on-brand, and correct the first time.
- Direct read on what this audience actually asks, misunderstands, and complains about — the raw material for content that converts.

Discord Community Manager · Apex Brotherhood (Will Davis — The5ers Host)

Oct 2025 – Jun 2026

- Owned day-to-day content and engagement for a prop-trading community: announcements, pinned reference posts, polls, and engagement activity.
- Enforced rules and held a professional, high-trust tone while keeping the channel active — retention through content, not just moderation.
- Reported directly to Will Davis, translating his direction into published community-facing material.

Guest Speaker · The5%ers & Trade The Pool

Dec 2025 · Trade Prep 2026

- Invited by The5ers on the strength of sustained, high-quality contribution — selected to represent the brand to its own audience.
- Scripted and delivered material on risk limits, drawdown management, and rule discipline for aspiring funded traders.

Prop-Firm Trader · Evaluation & Funded Accounts

May 2024 – Present

- Two-plus years across evaluation and funded stages — drawdown rules, consistency conditions, scaling, and payouts. Subject-matter credibility that lets me write and brief trading content without a fact-checker behind me.

CORE SKILLS

Copywriting	Written unaided — headlines, hooks, captions, video scripts, community announcements, long-form explainers, FAQ and educational copy
Video & Live	DaVinci Resolve editing, short-form and long-form cuts, captions and pacing, publishing and scheduling; live stream production and on-air troubleshooting
AI Production	AI generalist — graphic design, animation and motion assets, image generation, thumbnail and creative variants, research, repurposing, workflow automation
Social & Community	Telegram and Discord content, announcements, engagement programming, community retention, brand voice consistency
Domain	Prop-firm marketing, futures and FX, funded-trader lifecycle, trader psychology, competitor and offer landscape
Languages	English (fluent) · Hindi (native) · Telugu (native)

Work samples — video, design, animation, and written copy — available on request. · **Available immediately**, remote from India.
